

## **2. Windsor Staff Survey**

## 2. Windsor Staff Survey

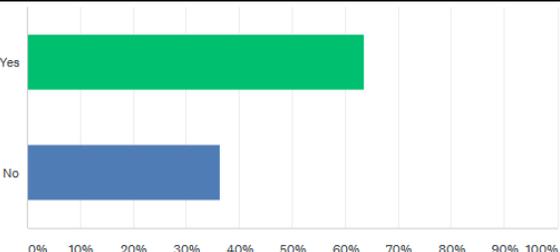

This document provides an initial report of findings from the Staff survey for Village of Windsor space needs through 2038.

### Survey

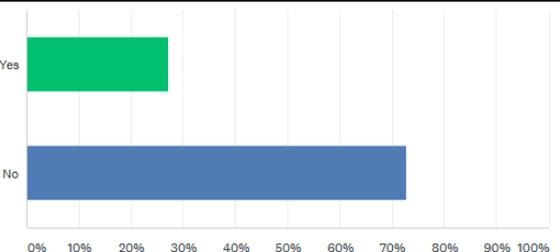

This survey is one of eight used to obtain opinions and suggestions. This survey was provided to designated persons by Village of Windsor. 12 responses were provided for the 14 questions requiring an average time of four minutes to complete. When the questions provide “answer any”, the participant can select multiple items. As a result, the graphic depiction is shown with only the description in the right-hand column.

The number of responses to each question is shown. The data provided are raw data.

1. Have you seen the Village of Windsor Comprehensive Plan dated April 19, 2016?  
11 responses

14. What long-term planning recommendations do you have for the Village of Windsor for 2038?  
8 responses

- Consider more commercial and industrial growth
- Keep agriculture as long as possible
- More tax base businesses
- Need to invest in roadwork
- Need to invest in roadwork
- Not to let Bob Wipperfurth give up his position as president. He is the best thing to happen to Windsor.
- The Village needs to focus on a balance of agriculture, residential and commercial. The Village also needs to work on future financing of its roads, parks and conservancies.
- What makes Windsor unique is the exclusive agricultural area. Windsor should resist forces that would change the nature of the agricultural area. Farmland is a precious resource and Windsor is fortunate to have productive farms in the community. Windsor has to resist pressures put upon it by developers interested in short-term gains. Developers timelines are always going to be shorter than the communities. It is extremely difficult to undo what development mistake.
